Safe Harbor Statement

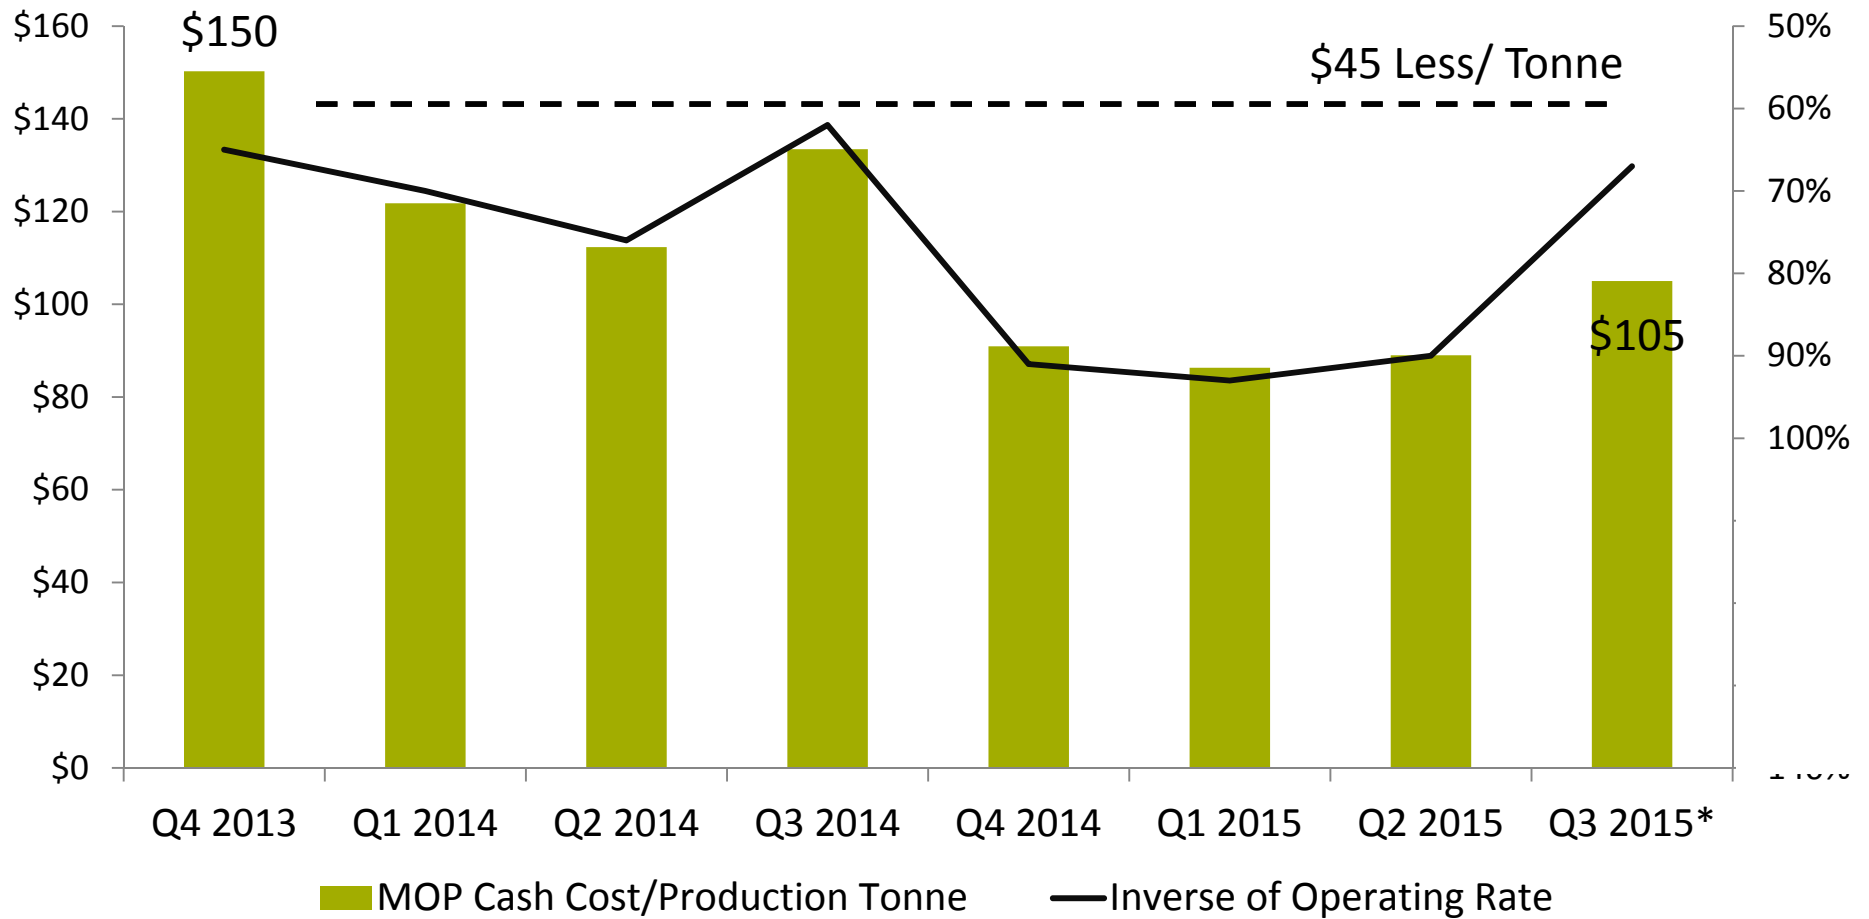

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about the Wa'ad Al Shamal Phosphate Company (also known as the Ma'aden joint venture), the acquisition and assumption of certain related liabilities of the Florida phosphate assets of CF Industries, Inc. ("CF") and Mosaic's ammonia supply agreements with CF; repurchases of stock; other proposed or pending future transactions or strategic plans and other statements about future financial and operating results. Such statements are based upon the current beliefs and expectations of The Mosaic Company's management and are subject to significant risks and uncertainties. These risks and uncertainties include but are not limited to risks and uncertainties arising from the ability of the Ma'aden joint venture to obtain additional planned funding in acceptable amounts and upon acceptable terms, the timely development and commencement of operations of production facilities in the Kingdom of Saudi Arabia, the future success of current plans for the Ma'aden joint venture and any future changes in those plans; difficulties with realization of the benefits of the long term ammonia supply agreements with CF, including the risk that the cost savings from the agreements may not be fully realized or that the price of natural gas or ammonia changes to a level at which the natural gas based pricing under one of these agreements becomes disadvantageous to Mosaic; customer defaults; the effects of Mosaic's decisions to exit business operations or locations; the predictability and volatility of, and customer expectations about, agriculture, fertilizer, raw material, energy and transportation markets that are subject to competitive and other pressures and economic and credit market conditions; the level of inventories in the distribution channels for crop nutrients; the effect of future product innovations or development of new technologies on demand for our products; changes in foreign currency and exchange rates; international trade risks and other risks associated with Mosaic's international operations and those of joint ventures in which Mosaic participates, including the risk that protests against natural resource companies in Peru extend to or impact the Miski Mayo mine; changes in government policy; changes in environmental and other governmental regulation, including expansion of the types and extent of water resources regulated under federal law, greenhouse gas regulation, implementation of numeric water quality standards for the discharge of nutrients into Florida waterways or efforts to reduce the flow of excess nutrients into the Mississippi River basin, the Gulf of Mexico or elsewhere; further developments in judicial or administrative proceedings, or complaints that Mosaic's operations are adversely impacting nearby farms, business operations or properties; difficulties or delays in receiving, increased costs of or challenges to necessary governmental permits or approvals or increased financial assurance requirements; resolution of global tax audit activity; the effectiveness of Mosaic's processes for managing its strategic priorities; adverse weather conditions affecting operations in Central Florida, the Mississippi River basin, the Gulf Coast of the United States or Canada, and including potential hurricanes, excess heat, cold, snow, rainfall or drought; actual costs of various items differing from management's current estimates, including, among others, asset retirement, environmental remediation, reclamation or other environmental regulation, Canadian resources taxes and royalties, or the costs of the Ma'aden joint venture, its existing or future funding and Mosaic's commitments in support of such funding; reduction of Mosaic's available cash and liquidity, and increased leverage, due to its use of cash and/or available debt capacity to fund share repurchases, financial assurance requirements and strategic investments; brine inflows at Mosaic's Esterhazy, Saskatchewan, potash mine or other potash shaft mines; other accidents and disruptions involving Mosaic's operations, including potential mine fires, floods, explosions, seismic events or releases of hazardous or volatile chemicals; and risks associated with cyber security, including reputational loss, as well as other risks and uncertainties reported from time to time in The Mosaic Company's reports filed with the Securities and Exchange Commission. Actual results may differ from those set forth in the forward-looking statements.

Compelling Free Cash Flow Growth Even at Today's Nutrient Prices

- Free cash flow* positive even at current low prices
- Benefits of investments expected to drive meaningful growth in 2017
- Significant upside leverage to higher prices

• *Free cash flow reconciliation in the appendix.*

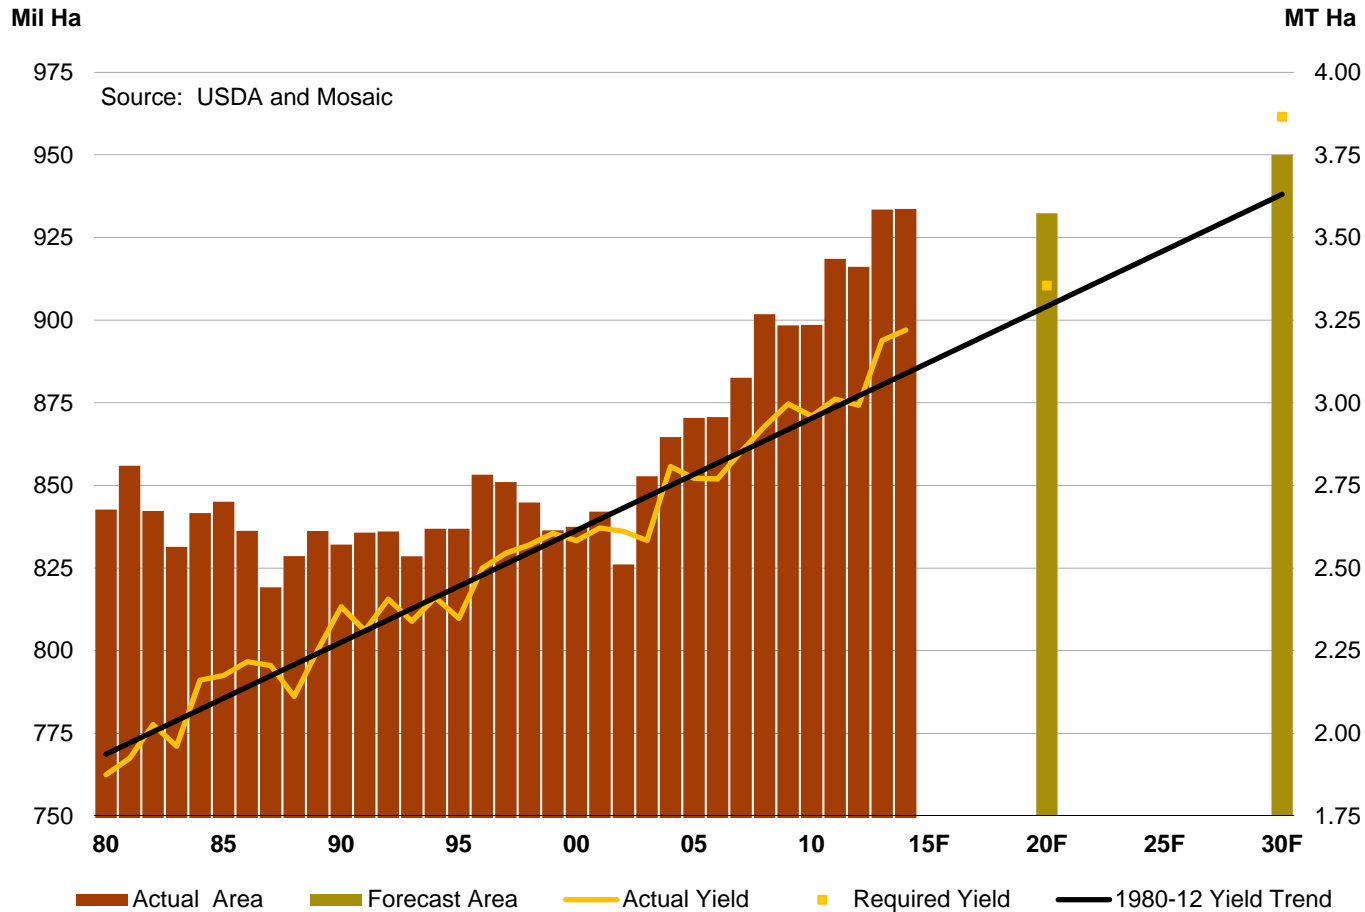

Long Term

And The Long-term Trend Is Up

World Harvested Area and Average Yield

Yield Growth Required To Keep Up With Demand

My Role

- Build on Mosaic's Track Record of Success:
 - Execution
 - Smart Investments
 - Environmental Stewardship & Safety
- Prudently Manage Capital
- Grow Value for Mosaic's Shareholders

Thank you

Reconciliation: Free Cash Flow

In addition to financial measures prepared in accordance with U.S. generally accepted accounting principles ("**GAAP**"), the Company has presented adjusted earnings per share and free cash flow, each of which is a non-GAAP financial measure. Generally, a non-GAAP financial measure is a supplemental numerical measure of a company's performance, financial position or cash flows that either excludes or includes amounts that are not normally excluded or included in the most directly comparable measure calculated and presented in accordance with GAAP. Neither adjusted diluted earnings per share nor free cash flow is a measure of financial performance under GAAP. Because not all companies use identical calculations, investors should consider that Mosaic's calculations may not be comparable to other similarly titled measures presented by other companies. Adjusted diluted earnings per share and free cash flow should not be considered as substitutes for, or superior to, measures of financial performance prepared in accordance with GAAP.

Management believes that adjusted diluted earnings per share provides securities analysts, investors and others, in addition to management, with useful supplemental information regarding our performance by excluding certain items that may not be indicative of or are unrelated to our core operating results. Management utilizes adjusted diluted earnings per share in analyzing and assessing the Company's overall performance, for financial and operating decision-making, and to forecast and plan for future periods. Adjusted diluted earnings per share also assists our management in comparing our and our competitors' operating results.

Free cash flow provides a metric that the Company believes is helpful to investors in evaluating the Company's ability to generate cash. Free cash flow should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP.

<u>Free Cash Flow</u> <i>US\$ Million</i>	Nine months ended	
	September 30,	
	2015	
Net cash provided by operating activities	\$	1,521
<u>Less: Capital expenditures</u>		<u>(702)</u>
