

## Mosaic Environment, Health and Safety Policy

The Mosaic Company is committed to conducting business activities in a manner which protects the environment and the health and safety of our employees, contractors, customers and communities. Our core values of integrity, excellence, sustainability, and connectivity define how we conduct our business, how we interact with each other, and how we treat our communities and our planet. We strive to help the world grow the food it needs in balance with preserving the ecosystems around us. Mosaic is committed to complying with applicable legal requirements and other commitments to which we subscribe. We strive to continually improve our management systems to drive improvement in our overall environmental, health and safety performance. We set targets and objectives to assist with driving and measuring these improvements.

*Our implementation of this policy has the following goals -*

**Environmental Protection** - All phases of the business will be managed in a manner which minimizes the impact of our operations on the environment. Pollution minimization and prevention practices will include substitution of environmentally friendly materials whenever feasible, and the employment of sound reuse and recycling practices and pollution control technology.

**Health and Safety** - In support of our relentless pursuit of an injury-free and healthy workplace, we will identify health and safety hazards to our employees and contractors and take appropriate action to reduce or eliminate these hazards.
