Forward Looking Statements

This presentation contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements include, but are not limited to, statements about the anticipated benefits and synergies of our acquisition of the global phosphate and potash operations of Vale S.A. previously conducted through Vale Fertilizantes S.A. (which, when combined with our legacy distribution business in Brazil, is now known as Mosaic Fertilizantes) (the “Transaction”), other proposed or pending future transactions or strategic plans and other statements about future financial and operating results. Such statements are based upon the current beliefs and expectations of The Mosaic Company’s management and are subject to significant risks and uncertainties. These risks and uncertainties include, but are not limited to: difficulties with realization of the benefits and synergies of the Transaction, including the risks that the acquired business may not be integrated successfully or that the anticipated synergies or cost or capital expenditure savings from the Transaction may not be fully realized or may take longer to realize than expected, including because of political and economic instability in Brazil or changes in government policy in Brazil such as higher costs associated with the new freight tables; the predictability and volatility of, and customer expectations about, agriculture, fertilizer, raw material, energy and transportation markets that are subject to competitive and other pressures and economic and credit market conditions; the level of inventories in the distribution channels for crop nutrients; the effect of future product innovations or development of new technologies on demand for our products; changes in foreign currency and exchange rates; international trade risks and other risks associated with Mosaic’s international operations and those of joint ventures in which Mosaic participates, including the performance of the Wa’ad Al Shamal Phosphate Company (also known as MWSPC), the ability of MWSPC to obtain additional planned funding in acceptable amounts and upon acceptable terms, the timely development and commencement of operations of production facilities in the Kingdom of Saudi Arabia, and the future success of current plans for MWSPC and any future changes in those plans; the risk that protests against natural resource companies in Peru extend to or impact the Miski Mayo mine, which is operated by an entity in which we are the majority owner; difficulties with realization of the benefits of our long term natural gas based pricing ammonia supply agreement with CF Industries, Inc., including the risk that the cost savings initially anticipated from the agreement may not be fully realized over its term or that the price of natural gas or ammonia during the term are at levels at which the pricing is disadvantageous to Mosaic; customer defaults; the effects of Mosaic’s decisions to exit business operations or locations; changes in government policy; changes in environmental and other governmental regulation, including expansion of the types and extent of water resources regulated under federal law, carbon taxes or other greenhouse gas regulation, implementation of numeric water quality standards for the discharge of nutrients into Florida waterways or efforts to reduce the flow of excess nutrients into the Mississippi River basin, the Gulf of Mexico or elsewhere; further developments in judicial or administrative proceedings, or complaints that Mosaic’s operations are adversely impacting nearby farms, business operations or properties; difficulties or delays in receiving, increased costs of or challenges to necessary governmental permits or approvals or increased financial assurance requirements; resolution of global tax audit activity; the effectiveness of Mosaic’s processes for managing its strategic priorities; adverse weather conditions affecting operations in Central Florida, the Mississippi River basin, the Gulf Coast of the United States, Canada or Brazil, and including potential hurricanes, excess heat, cold, snow, rainfall or drought; actual costs of various items differing from management’s current estimates, including, among others, asset retirement, environmental remediation, reclamation or other environmental regulation, Canadian resources taxes and royalties, or the costs of the MWSPC, its existing or future funding and Mosaic’s commitments in support of such funding; reduction of Mosaic’s available cash and liquidity, and increased leverage, due to its use of cash and/or available debt capacity to fund financial assurance requirements and strategic investments; brine inflows at Mosaic’s Esterhazy, Saskatchewan, potash mine or other potash shaft mines; other accidents and disruptions involving Mosaic’s operations, including potential mine fires, floods, explosions, seismic events, sinkholes or releases of hazardous or volatile chemicals; and risks associated with cyber security, including reputational loss; as well as other risks and uncertainties reported from time to time in The Mosaic Company’s reports filed with the Securities and Exchange Commission. Actual results may differ from those set forth in the forward-looking statements.
Non-GAAP Financial Measures

This presentation includes certain non-GAAP financial measures, including EBITDA, adjusted EBITDA, adjusted earnings per share. For important information regarding the non-GAAP measures we present, see “Non-GAAP Financial Measures” in the appendix of this deck, in our November 5, 2018 earnings release and in the performance data for the third quarter of 2018 that is available on our website at www.mosaicco.com in the “Financial Information – Quarterly Earnings” section under the “Investors” tab. The earnings release and performance data are also furnished as exhibits to our Report on Form 8-K dated November 5, 2018.

We are not providing forward looking guidance for U.S. GAAP reported diluted net earnings per share or a quantitative reconciliation of forward-looking non-GAAP EPS, adjusted Gross Margins and adjusted EBITDA. Please see “Non-GAAP Financial Measures” in our November 5, 2018 earnings release for additional information.
High Quality Asset Portfolio

Largest global finished phosphate and potash producer

- #1 Phosphate capacity of 16 million tonnes
- #4 Potash capacity of 11 million tonnes
- #1 Premium fertilizer producer
- Distribution assets in key markets
- Global potash sales through Canpotex
Focused on The Americas

Home base in North America:
74% of 2017 NA phosphate production
In a 10 mm tonne phosphate market:
  MicroEssential sales of 1.6 mmt(1)
  Total phosphate fertilizer sales of 4.5 mmt(1)
39% of 2017 NA MOP production

Leading position in Brazil:
Solidified through 2018 acquisition of Vale Fertilizantes
Total sales of 9 mm tonnes(2) in a 35 mm tonne market
Largest in-country producer
Logistically advantaged production
Port ownership and access

(1) 2018 forecast; (2) midpoint of 2018 guidance
Executing Our Strategy

By transforming business operations, lowering costs and increasing leverage to improving markets, Mosaic is well positioned to generate strong shareholder returns.

PRINCIPLES
We are responsible, innovative, collaborative and driven

Priorities
- Develop, engage, empower our people
- Grow and strengthen our business
- Create value for our stakeholders

WIN in our core businesses
GROW in new ways

We Help the World Grow the Food it Needs.

Focused on Reducing Costs

Selling, General & Administrative Expenses

$ Per Tonne
* Phosphate cash conversion costs are reflective of actual costs, excluding realized mark-to-market gains and losses. These costs are captured in inventory and are not necessarily reflective of costs included in costs of goods sold for the period.
Progress in Potash

*MOP cash production costs are reflective of actual costs during the quarter, excluding CRT and realized mark-to-market gains and losses. These costs are captured in inventory and are not necessarily reflective of costs included in costs of goods sold for the period.
Esterhazy K3: Substantial Cash Flow Benefits

Completion of K3 allows MOS to eliminate Esterhazy brine management expense and growth capital spend, improving free cash flow by a total of ~$400 million.

Primary mining transitioning from K1 and K2 to K3

- **Operating Permit**: Q3 2018
- **K3-K2 Belt/North Hoist/Shaft Operational**: Dec 2018
- **First 4-Rotor Operational**: Q3 2019
- **K3-K1 Belt Operational**: Q4 2020
- **K1 Primary Mining Stops**: Q1 2021
- **K3 Fully Operational**: Dec 2023
- **K2 Primary Mining Stops**: Q4 2023

2018 2019 2020 2021 2022 2023 2024
Lower Operating Costs with K3 Completion

Potash Cash Cost Reduction

Cash Costs Including royalties, excluding resource taxes

Production Costs

- 2024
- 2018
- 2013
Growing & Transforming Mosaic Fertilizantes

Cumulative Synergy Capture By Quarter 2018

- YTD September 2018 operating earnings of $144 million; adjusted EBITDA(1) of $277 million compared to $50 million pro forma YTD 2017.
